

Alga based mask

Product type	Skin mask
Product name	Alga based mask
INCI	Solum Diatomeae • Algin • Calcium Sulfate • Sodium Phosphate • Tetrasodium Pyrophosphate • Spirulina Maxima Extract
Composition	Active agents from alga in a mineral matrix, which forms a flexible film with water
Properties	Hydrating and smoothing, greenish mask with actives of alga spirulina maxima. The ideal mask for customers who do not feel comfortable in hot modelling masks. The mask can be applied on face and body.
Application	<p>The mask powder is mixed with water to a paste and applied to the skin where needed. The mask solidifies after a short while and can be removed after 20 minutes as a flexible film.</p> <p>Formulation example: Antiaging alga based mask</p> <p>Take: 1 ml Boswellia nanoparticles 1 ml Avocado oil</p> <p>Mix and apply to the skin. Next, apply about 4 ml base cream High Classic. Then prepare 30 g alga based mask as explained above and spread it quickly over actives and base cream. Allow it to work for 20 minutes and remove mask.</p> <p>Please see base modelage for more applications and formulations.</p>
Shelf life	36 months at appropriate storage, unopened
