

DMS[®]-base cream High Classic Plus

Product type	DMS [®] -base cream
Product name	DMS [®] -base cream High Classic Plus
INCI	Aqua • Olea Europaea Fruit Oil • Pentylene Glycol • Glycerin • Caprylic/Capric Triglyceride • Hydrogenated Lecithin • Butyrospermum Parkii Butter • Squalane • Xanthan Gum • Sodium Carboxymethyl Betaglukan • Ceramide 3
Composition	Cream with high-quality skin caring substances (phosphatidylcholine, shea butter, ceramide, squalane, natural moisturizers), without emulsifiers
Properties	White, easily spreading and fast penetrating cream, regenerating the skin without leaving oil shine
Application	Skin care for dehydrated and low-fat skin The cream comes in economy dispensers for beauty institutes, in 50 ml dispensers and in 44 ml dispensers for the adaptation with active agent concentrates (dermaviduals [®] -modular).
Additives for the 44 ml DMS [®] -base cream dispensers	Up to 6 ml of active agent concentrates can be stirred into the 44 ml cream dispensers (at room temperature).
Remarks	When the skin care is just being adapted from preparations containing mineral oils and emulsifiers to DMS [®] products the skin may possibly feel dry at first which then is followed by a feeling of a pleasantly soft and fine-porous skin surface. To be used for skin care only.
Shelf life	At least 36 months at appropriate storage, unopened

Important remark: The labels of the 44 ml base cream dispenser come separately with the individual Beauty Institute imprint. The type of cream is printed on the dispenser bottom. **BCL** = DMS[®]-base cream Classic, **BHC** = DMS[®]-base cream High Classic, **BHP** = DMS[®]-base cream High Classic Plus.

State of the filling of 44 ml dispenser in use: To estimate the state of the filling a wooden toothpick can be stuck in the little whole on the bottom of the dispenser.

Practical advice: treatment of dandruff

Colleagues found out, that the cream is very effective for the treatment of dandruff when applied on the scalp. It is recommended to apply the cream overnight and to place a towel over the pillow.

Dry skin

Skin can be especially dehydrated in the spring, due to very low air humidity or air conditioning. In this case **Base cream High Classic Plus (BHP)** with the addition of up to 4 ml **Liposome NMF Concentrate** will help.
