

Cleansing milk with DMS®

Product type	Skin cleansing
Product name	Cleansing milk with DMS®
INCI	Aqua • Caprylic/Capric Triglyceride • Pentylene Glycol • Glycerin • Hydrogenated Lecithin • Butyrospermum Parkii Butter • Ceramide 3 • Squalane • Sodium Carbomer • Xanthan Gum
Composition	<p>Cleansing milk with DMS® is free of tenside components. Its composition is similar to the DMS®-base creams. This makes cleansing milk with DMS® a product for care and cleansing in one – with benefits similar to those of donkey and mare milk.</p>
	
Properties	Cleansing milk with DMS® removes dirt particles and make-up residues without affecting the skin.
Application	Cleansing milk with DMS® is applied with circular movements and then removed with a humid tissue. No further treatment is required.
Shelf life	36 months at appropriate storage, unopened
